Software Developer

WORK EXPERIENCE

Web Developer – Addis Capital

addis.capital

Dubai, UAE (Remote)

Dec 2023 – Present

- Working as a full-stack web developer at a real estate agency.
- Developed a company website for prospective real estate buyers.
- Building and maintaining a custom dashboard to manage the website and incoming sales leads.

MY PROJECTS

KxHTTP – kxhttp.org

A simple, open-source command-line HTTP client for quick and easy API testing. Written in C++.

MagicEnvision – magicenvision.ca

I built a Shopify website for a streetwear clothing store.

Minimati – github.com/kiduswb/minimati

An open-source blogging CMS written in PHP for developers who need to add simple blogging functionality to their websites.
